## FAQ

### Why was this change made?

Swim lesson levels are skill-based, not an age-based. Staggered registration helps improve activity registration accuracy, in-water safety, and programming equity for all participants.

### When can I add future lessons to my "Save for Later" list?

There is no change to the timeframe for adding activities to a "Save for Later" list. Participants may add activities from any visible session to their list; however, you must wait until the corresponding open registration date for that session to enroll.
